

ITEMS FOR DISCUSSION WITH FIELD TEAMS

PDA Interview Entries

- ***To best of your knowledge was vermiculite used in and around home.*** Drop down includes yes, no, unknown. Should select one.
 - ***Was vermiculite purchased at a store?*** Should be completed if answer to above is yes; otherwise leave blank.
- ***Was residence or building remodeled?*** Drop down includes yes, no, unknown. Should select one.
- ***Year of Construction.*** Enter the year. If unknown, for now enter 9999 (PDAs will be updated to include an option for unknown).
- ***Have any residents been diagnosed with asbestos-related diseases?*** Drop down includes yes, no, unknown. Should select one. Number of people is not an option, nor should be typed in.
- ***Do you have any knowledge of residents or visitors to property who have been exposed to asbestos?*** Drop down includes yes, no, unknown. Should select one. Number of people is not an option, nor should be typed in.

Field sketches will be on 8- inch by 11-inch, pre-printed graph paper. Exterior property sketches, entitled *Field Diagram of Property Yard* will be mandatory for each property inspected. Additional exterior drawings may depict complex use areas or other property details. Interior building drawings are optional.

At the top of each drawing the field team will include the AD property number, the date, and the initials of the field team members completing the survey. All drawings will show: 1) North arrow for orientation; 2) overall property dimensions; 3) location, dimension and corresponding building identification number (BD) of primary and secondary buildings; 4) location, dimension and corresponding use area (UA) identification number of specific, common, limited and non-use areas; 5) corresponding sample identification numbers (TT); and 6) location and dimension (if applicable) of other features such as stock piles, driveway(s), parking areas, walkways, trees, and fences.
